

Our Services

ur-taigh is wholly owned and operated by chartered architects registered in the UK and is supported by established architects currently working throughout the Highlands and Islands of Scotland.

From the number of enquires that we received every month, we noticed that demands and expectations for professional design services in Scotland are changing.

ur-taigh was established in response to these changes and provides an additional choice to clients who want more control over their project.

Our services are specifically developed for delivery over the internet, to provide;

- More convenient access to professional products and advice.
- More flexible services and payment options
- Competitive and transparent fee structures.
- Faster response times

Traditional arrangements for the delivery architects services can appear expensive, with fees calculated on a percentage of your projects construction cost. Typically these can be up to 10 or 15% of your project budget.

Instead of appointing an architect to organise the whole of your project on your behalf, you can reduce your costs by choosing the amount of involvement and support that you want at each stage.

- Only pay for the services you need.
- Pay for your services as and when you need.
- Proceed with the project at your own pace, one step at a time

You have the re-assurance of knowing that there are options available for upgrading your support package at anytime, you can even revert to a traditional architect service if later realise that you would prefer the full and comprehensive level of support that this can offer.

You will find lots of help and advice on our website and we can also be contacted directly to answer any queries.
