

Services Limitations

ur-taigh is intended to provide a convenient and efficient service for clients that have clear understanding of their project objectives and want greater control over the development of their project.

While our services provide an additional choice to clients, our services are not the same as the services that might be expected from an independent architect acting as your agent and providing a traditional service on your behalf.

There are practical limitations on the extent of services that we can provide direct over the internet. In particular, the ability to provide specific advice or recommendations based on individual personal circumstances can only be provided through the one to one contact provided by a traditional architect-client relationship.

While some advice and guidance is available on this site, it is the responsibility of each user to determine the specific services and level of support that are appropriate to their own circumstances.

You may also choose to appoint an architect to act as your agent and have them undertake the management of your project using one of our catalogue designs. Our services packages have been designed to enable you to do this.

If you are in any doubt about the services you need, we would recommend that you seek professional and independent advice from registered architect in the traditional manner.

If you feel that you need further advice, or would like us to arrange for one of our affiliated architect practices to contact you to discuss your requirements in more detail. [\[click here...\]](#)
